

Seba Dynatronic®, a member of the **Megger** Group, is a world leader in the production of equipment and fully-equipped test vans for locating losses in water distribution networks, cathodic protection pipelines and faults in power or telecommunication cables, with an experience of over 65 years. The company also manufactures buried pipelines and cables locators, and manhole locators.

Headquartered in Baunach - Bavaria, the company has subsidiaries on all continents. "The key word of our philosophy is **TRAINING**." Seba Dynatronic® offers its clients every year a number of seminars organized at the seminar centre in Baunach - Germany, or at the users-s headquarters where more than 30,000 specialists from 120 countries, including Romania, have already participated.

All major water companies in Romania have purchased from our company portable equipment to locate network water losses, which have proven their robustness and efficiency in operation. More than **60 test vans** shave been delivered at the time.

As far as equipment for the energy sector is concerned, up to now, on the Romanian market, our company has put into operation a number of over **200 fully equipped test vans** and mobile fault locating systems.

It is a great pleasure to introduce our range of instruments and equipment produced by our company and used in operation / maintenance of water pipelines, district heating and sewerage:

- Completely equipped test vans - **“ECO” COREMOBIL**
- Flowmeters - pressure gauges - **UDM 300-500, TDM 200**
- Pressure Monitoring Systems - **Seba Flow**
- Pressure and flow loggers - **SebaLog® D3, SebaLog® P-3, P-3mini**
- Loss monitoring systems / network correlation - **SebaLog®N3**
- Leak noise correlators - **Correlux® C3, Correlux® C300, sebalog CORR**
- Trunk main correlators - **Hydro Corr**
- Listening devices - **Hydrolux C3-HL, HL-H₂®, HL50**
- Pipe and cable locators – **vLocPRO3, Ferrolux®, easyloc**
- Manhole locators - **VM 880, FT 80**
- CCTV portable systems- **vCam6 VIVAX**

All the instruments offered are extremely robust, easy to use, even in the toughest conditions, allowing you to successfully get out of the toughest situations by quickly performing the necessary tests and measurements. We are confident that SebaKMK offers you the **complete solution** to solve all your problems, and the choice and use of our tools will always make you a winner.
